blyman From Mike Dady's District. ALBANY, Feb. 22 .- The Assembly to-day surprised the three Republican leaders, Speaker S. Fred Nixon, Majority Leader Rogers and Assemblyman Jean L. Burnett, by defeating a bill fathered and supported by them.

The bill wipes out the statutory provision limiting to \$3,500 a year the expenses of the compiler of the miscellaneous court reports and leaves him a free hand in the matter of expenses and of auditing his own bills. The bill was biterly attacked both by Republican and Democratic members and party lines were broken down for the first time this session. Assemblyman Coxe (Rep., Erie), angered Majority Leader Rogers by making slighting allusions to the Assembly Ways and Means Committee, which he declared did Likely Soon to Be Made Public-Indictnot show much business ability in reporting the appropriation bills.

Mr. Coxe said that the miscellaneous court reporter had received \$96,000 for editing twenty-three volumes of reports and had not been at his office since last

When the hill came up on final passage but seventy-three votes could be mustered in its favor to fifty-seven in opposition. Strenuous efforts were made to get members to change their votes in order to secure the seventy-six votes required to pass the bill. This was unsuccessful and the bill will come up again. It will probably pass the lower House the next time it is called up.

Assemblyman Coutant did not to-day, as had been expected, introduce the measure intended to prevent New York city from going into Ulster county and acquiring the watersheds. Mr. Coutant says that there will have to be a stronger demand from his constituents before he will introduce it.

Another State water board control bill made its appearance to-day. Its sponsor is Assemblyman O'Neil (Rep., Kings, and representing Col. Michael Dady's district). It provides for a State board to be appointed by the Governor. There will be three commissioners. One is to be appointed from the First Judicial District, another from the territory embracing the Second, Third, Fourth and Sixth Judicial districts, and the third from the other judicial districts.

cution under the Sherman anti-trust act, the outcome is awaited here with great interest. Under this law the packers may be fined and imprisoned, and it is the intention of the Administration to make an example of the packers, if it is possible with the evidence at hand.

Promises have been made time and again by Commissioner Garfield that his beef report was nearing completion and that he would soon place it in the hands of the President. It was said to-day that there was no reason why the report should be The State Engineer and Surveyor, the State Superintendent of Public Works and the State Health Commissioner are to be members of the commission. The bill gives the board control of all water supplies in the State.

Mr. O'Neil does not say that this is the Governor's State water commission bill, as recommended in his special message, but he adds: "It is a peculiar coincidence that in the message the Governor recom-

mended some things that I had had in my mind."

TO BAR FLOATING CREMINALS. Bill at Albany to Help McAdoo Drive Out Undestrable Visiters.

ALBANY, Feb. 22.-Police Commissioner McAdoo has hit upon a plan that it is believed will free New York city from criminals who float there from all sections of the country, against whom no specific charge can be made. Assemblyman Hornidge to-day introduced a bill amending section 887 of the Penal Code by extending the meaning of "vagrants."

The last amendment to the Penal Code in relation to vagrancy was that making ence of five cents means very much. a person who lived off the unlawful earnings of a disorderly woman a vagrant. A great nation never forgets the great deeds and great examples of its ancestors, and no man indeed in any country better deserves grateful remembrance than George Washington. He was in truth a providential man; no other of your many great men would have been able to do so well what he did and he, appearing at any other period of your history, would not have on the subject, they are going ahead with well what he did and he, appearing at any other period of your history, would not have proved such a useful citizen. The American flags displayed throughout Bayonne, N. J., yesterday, in honor of the memory of George Washington were saluted by scores of women and girls who had been informed of the decision of the Bayonne Political Club that a military salute to the flag is the proper thing for girls and women.

It was the suggestion made by Admiral Dewey to the club. In several instances a number of boys and girls stopped in front of a house where a flag was displayed and in unison gave the military salute. They even saluted small flags which patriotic drivary had festered the patriotic drivers had fastened to the heads of their horses.

It is generally conceded that Mr. DuPont's persistent refusal of the office-in spite of which he has gained seven votes in five days, all from the ranks of the Addicks Republicans—would not be so pronounced if his uncle, Henry A. DuPont, withdrew from the contest.

from the contest.

Coleman DuPont's close friends attempted to-day to deny this, giving the reason that all the DuPont millions are now intrusted to him while he perfects more complete organization of the big powder making company, including all the smaller companies which it has scquired, and that he would not be allowed by the DuPont business interests to accept a Senatorship.
